

**GISSA MPUMALANGA
ESRI User Group
14 September 2012**

The Geo-Information Society of South Africa (GISSA) Mpumalanga Region, in cooperation with ESRI South Africa, will be hosting the first **ESRI User Group** meeting, on 14 September 2012 in Ermelo.

The goal of GISSA Mpumalanga is to have members actively involved in our region, to share information on the fast expanding GIS technology and new ventures for the future in our various fields according to our members' needs. This is an opportunity for members to present on their projects and companies activities within Mpumalanga.

Geo-information professionals, GIS Service/Solution providers, GIS Software Vendors, GIS Special Interest Groups, NGOs, Government Organisations, and everyone with an interest in Geo-information usage are very welcome to this exciting meeting.

“ERSI User Group”
