PROPOSED CHANGES ON NATIONAL MAP SERIES

- The Chief Directorate: National Geospatial Information (CD: NGI)'s main objective is to produce maps and other geospatial information nationally.
- To improve services and to keep up with trends and ensure universality, CD: NGI has embarked on the Map Design project aimed at enhancing and improving the mapping products, where symbologies have been re-designed or new symbols designed using good map principles and user communication value.

The official SA Languages to be used

- The national language used in the maps will be reviewed in the context of the official languages of South Africa.

❖ the language policy of the Department of Agriculture, Land Reform & Rural Development (DALRRD) (including language for administration in the public service)

❖ The constitutional mandate requires all official languages to be used in the country.

❖ The four proposed languages to be used on two scales 1: 10 000 and 1:50 000 are **English**, **Afrikaans**, one **Nguni language** and one **Northern seSotho** language.
